

Leopard Operating System

Mac OS X v10.5 Leopard is packed with over 300 new features, and works with the software and accessories you already have. Leopard brings a stunning new look to the desktop, and the 'Stacks' feature provides a great new way to keep it clean. See your files right in the Finder and browse through them with Cover Flow, or instantly view full-size previews of your files without opening an application.

Come and see the amazing new features your Apple operating system has to offer. Whether you are just upgrading or trying to decide if you should upgrade, this workshop will guide you into Leopard use.

Audience: K-12 teachers, all office staff, all Mac users

Date: 9/26/2008

Time: 9:00 a.m. - 11:30 a.m.
